**4th Conference of the Postgraduate and Early Professionals/Academics Network  
of the Society of International Economic Law (PEPA/SIEL) 2015**

**Milan, 16-17 April 2015**

Organised by PEPA/SIEL in collaboration with the Department of International, Legal, Historical and Political Studies of the University of Milan

SIEL's Postgraduate and Early Professionals/Academics Network (PEPA/SIEL) is, among other things, interested in fostering collaboration and mentoring opportunities for emerging academics and professionals in International Economic Law (IEL). PEPA/SIEL fulfils these goals through various activities such as organising conferences at which emerging IEL academics and professionals can present and discuss their research in a supportive and welcoming environment.

We are pleased to announce that the fourth conference will take place on 16-17 April 2015 in Milan (Italy).

**Call for Papers**

This conference offers graduate students (students enrolled in Master or Ph.D. programmes) and early professionals/academics (generally within five years of graduating) studying or working in the field of IEL an opportunity to present and discuss their research. It also provides a critical platform where participants can test their ideas about broader issues relating to IEL. One or more senior practitioners and academics will comment on each paper after its presentation, followed by a general discussion.

**We invite submissions on any IEL topic including, but not limited to:**

- Law and practice in international economic governance and international organizations;
- International trade, investment, competition, monetary and financial law;
- The interaction of IEL branches with other branches of law governing intellectual property, human rights, environment, sustainable development, food safety;
- Bilateral and regional economic integration and the multilateral trading system;
- Comparative economic law, focusing on how international economic law interacts with laws, institutions and actors at the domestic level;
- International economics, philosophy, sociology, politics.
